AN accident occurred at the Bee Hive school house, four miles south of Hickman, which proved fatal. It being the last day of school, upon the program was a game of base ball. THE last Nebraska crop bulletin says: The week opened with two days of high temperature and hot, south winds, very trying to all crops, followed during the remainder of the week by general and copious rains in all parts of the state, which have revived vegetation and thoroughly saturated the ground. The temperature for the week was continuously above the normal, averaging for the first two days 18 degrees above the normal and 10 degrees above for the week as a whole.

NEWS reached Curtis that, as a result of the late storm, Mrs. Frank Jennings lost her life. Her infant, about two years old, was found in a Lincoln county, in a sod house. The walls of the house became soaked from the driving rain, and Jennings braced them up and they stood until three o'clock in the morning when the north end fell in. A servant girl, who was sleeping in the south part, ran to a neighbor's and help soon came. Mr. Jennings was taken out almost smothered to death, the little baby was not hurt, but Mrs. Jennings was found dead.

A CYCLONE started twelve miles southeast of York and for a distance of sixteen miles it plaid havoc with farm houses, barns, corncribs, windmills and other farm property, doing an immense amount of damage. Its path varied in width from ten rods to a mile. It started near William Vantyle's farm and continued until within a few miles east of Gresham. From Vantyle's farm to that of William Witte, a distance of about five miles, the damage was confined to light buildings and windmills, but on reaching Witte's place it completely wrecked his house and barn, together with the contents and machinery, the family barely escaping with their lives. Other houses and outbuildings were badly wrecked.

WHILE bathing in the Blue river at Beatrice, in company with a number of other boys, Arthur, the 7-year-old son of L. D. McGinnis, was drowned. The river being high, the little fellow had gone beyond his depth and was floating down stream before his companions were aware that he was in danger.

DURING the absence of the family at church, the residence of S. H. Hunter, just west of Nebraska City, was burglarized by three tramps and jewelry to the amount of \$300 was taken. The burglary was soon discovered and a search commenced for the thieves, who were arrested and jailed.

SOUTHERN REPRESENTATION.

Republican National Convention Will Bring a Fight.

Washington, June 8.—At the Republican national convention in Minneapolis in 1892 a resolution was adopted instructing the executive committee to reduce, if in their judgment proper, the representation from the South in the national convention of 1896. The South is now entitled to 204 votes out of a total of 906, and the northern and eastern Republicans want the southern influence weakened, as that section does nothing toward the election of a Republican president. Senator Elkins of West Virginia proposes to prevent if possible the reduction of southern representation, and will call to his assistance Richard C. Kerens of Missouri, who is a member of the executive committee. The members of the committee from the southern states will be a unit in opposition to the proposed change, and Mr. Kerens is expected to control the members from the silver states of the West and thus defeat the resolution.

SPANISH MINISTER PROTESTS.

Calls the Attention of Our Government to Filibustering Expeditions.

Washington, June 8.—Mr. De Lome, the Spanish minister to the United States, has called the attention of the state department to allegations that filibustering expeditions against Spanish authority in Cuba are being fitted out in the bayous of the Lower Mississippi river. He also says armed citizens of some of the southern states often parade with arms, with a view to joining some of these outgoing expeditions, or at least to give active encouragement to the Cuban insurgents. There is little truth in the reports which reach here from the South of the fitting out of warlike expeditions against Cuba.

Spanish officials here are keeping close watch on several supposed expeditionary movements for the purpose of furnishing information on which to request action by the United States government. One of the expeditions is believed to have started from Philadelphia. The suspected ships, it is said, are the George Childs and Bridgeport. The Spanish officials connect the movements of these ships with suspicious operations at Dauphin and Cat Island, on the mouth of the Mississippi.

THREE MEN HANGED.

San Quentin Prison, California, the Scene of a Triple Execution.

San Francisco, Cal., June 8.—Three murderers were hanged this morning at San Quentin. Five men were to have been executed, but Gov. Budd resented Fremont Smith and Rico Morasco. The three men who suffered the death penalty are Patrick Collins, A. Millo Garcia and Anthony Azofo. Collins stabbed his wife to death because she would no longer supply him with liquor. A. Millo Garcia is a Mexican. Last year near Colton, San Bernardino county, he cut the throat of an old Frenchman. The purpose was robbery. Anthony Azofo shot and killed Ben Harris, a Southern Pacific detective. Harris was a highwayman. He had robbed a railroad station agent and the detective had traced him to Boulder Creek, when Harris attempted to place him under arrest. Azofo drew a revolver and shot him.

CONDITION OF KANSAS WHEAT

Southern and Western Portions of the State Badly Damaged.

Wichita, Kan., June 8.—Conservative estimates of the probable wheat crop in southern and western Kansas are: Cowley county, one-fourth crop; Sedgewick county, one-half crop; Sumner county, one-fourth crop; Reno county, not to exceed one-fourth of a crop. There will be a good half crop in Harston county. In all the counties along the main line of the Santa Fe west and in the counties south of the main line there will be a total failure of wheat. In the territory visited by the recent heavy rains the wheat is filling out much better than was anticipated. Taking Oklahoma and the Indian Territory as a whole, there will probably not be as much wheat raised as was put in for seed. Corn in southern Kansas is in splendid condition, and the prospects indicate the largest crop for years.

BANKER CASSATT ARRESTED.

Failure of the Pella National Bank Assuming a Serious Look.

Des Moines, Iowa, June 8.—Ex-Senator E. R. Cassatt, until recently the president of the First National Bank of Pella, arrived here yesterday on the Rock Island train with United States Marshal Gray. Investigation shows that \$60,000 of the bank's funds are missing, much of it belonging to the poor of the town. While it is generally known that part of his dealings on the board of trade was alleged to have been done through a Des Moines bucket-shop, his later and larger deals were made in Chicago. The amount of cash on hand is \$8,000, while the examiner's report for January showed the amount on hand to be 40 per cent of the full amount. The fact that the present cashier, J. H. Stuenkel, swore to the bank's being in a solvent condition on March 5 and May 7 places him in a peculiar position.

Statue to Sir John Macdonald.

Montreal, Que., June 8.—A great popular demonstration took place yesterday at the unveiling of the Sir John Macdonald statue. It was the fourth anniversary of his death. A SHOCKING STORY.

SERIOUS CHARGES AGAINST PACIFIC MAIL STEAMSHIP CO.

Gustav Rowan, One of the Passengers Rescued from the Steamer Colima, Says the People on Board Were Practically Murdered.

San Francisco, Cal., June 10.—Gustav Rowan, one of the survivors of the Colima, has sent a communication to a local paper in which he says:

"I want to make a statement. Some of the survivors will not dare to tell the truth as they have been promised money to keep still. The Colima was lost because she was badly handled by officers without capacity and by bad men when the gale struck us. When I went after the life preservers and commenced to give them out to the passengers, the steward told me to let them alone and ordered me forward. I was saved because I got a life preserver and if the others had been allowed to get them, too, many would have been saved with me.

"The passengers were kept penned up until the last moment and then made to go down in the ocean like a pack of dogs. If some of the passengers had killed the steward who kept them from getting safety it would have been mercy to the others. In spite of what he told me I kept on giving out life preservers and by this saved some of the people from death.

The Chronicle says that as a result of the testimony given at the federal inquiry into the cause of the Colima disaster a number of suits for damages will be brought against the Pacific Mail steamship company.

FATAL FLOOD IN HUNGARY.

Is Feared the Town of Koberdsdorf Is Swept Away.

London, June 10.—A dispatch to the Standard from Vienna gives additional particulars of the flooding of Koberdsdorf, the Hungarian summer resort. So sudden was the rise of the freshet that it was not realized until the bodies of the dead peasant, pieces of buildings and furniture from the cottages came floating into the lower part of the town.

One of the remarkable incidents of the flood was related by some of the persons who escaped to the mountains. It was the story of the manner in which a cradle containing a sleeping child was forced down the gorges by the rushing waters. The child was rescued with difficulty by those in the lower part of the village. Owing to the damage to the wires, it is impossible to ascertain the exact loss of life, but it is feared that the whole town has been destroyed. It is, however, known that twelve bodies of the inhabitants of this one village have been recovered.

Brazil Sues for Libel.

New York, June 10.—A special cable to the Herald from Buenos Ayres says: "In refutation of stories which ex-President Caceres of Peru has been giving to the press, Gen. Pierola last night wired La Preusa that no agreement existed between himself and the Chilian government, and that all assertions to the contrary were absolutely false. Brazil has ordered her minister here to prosecute the Petit Journal, a French newspaper, for an alleged insulting article about Brazil in connection with the French Guyana affair. Two regiments have been sent to Rio Grande do sul to re-enforce the frontier army. The Italian legation in Rio Janeiro has sent no more claims for indemnity of citizens tortured during the last revolution.

Michigan Man Killed in Mexico.

Chihuahua, Mexico, June 10.—About two weeks ago P. B. Fowler and John T. Benton, two wealthy young Americans from Michigan, arrived here and left on an overland trip to Hermosilla, across the Sierra Madre mountains. Advice has been received here that Mr. Benton was killed three days ago by falling over the side of a cliff. His companion is on his way to Nogales, Arizona, with the body of the dead man.

May Clash with Socialists.

Vienna, June 10.—It was intended that the socialists' demonstration on Sunday should be prohibited. Thousands of workmen, however, have already decided to take part in the procession, and it may be impossible to prevent a demonstration. The police have orders to do all in their power to stop the meetings of the socialists, and, as the officials have recently been taking part in these movements, serious trouble is expected.

Tribesmen Attack British.

Calcutta, June 10.—Dispatches from Simla say that the tribesmen of Chitral are again threatening to attack the British troops. A body of 500 tribesmen is collected in the vicinity of Dargal and the British are preparing for an attack. Later dispatches from Simla say that a body of Shikranis has surprised a village twenty miles from Fort Sandeman, in the Zho country, and killed a British lieutenant and seven men.

Burglars Commit Murder for \$90.

Milwaukee, June 10.—A special from Oconto, Wis., says Michael Baumgardner was murdered last night by burglars. Mrs. Baumgardner was aroused by her husband's cries and saw him grapple with two strangers, who escaped in a carriage which was standing at the door. The burglars secured about \$90.

DATE OF NEW TARIFF LAW.

Chief Justice Fuller Holds That It Went Into Effect on Aug. 28.

Washington, June 10.—Chief Justice Fuller's opinion in the Burr and Hardwick case, involving the date when the present tariff law went into effect, which was announced on Monday last, but not read, was made public to-day. Discussing the contention that the law should have taken effect on August 1 instead of on August 28, 1894, the Chief Justice says:

"Upon the threshold we are met with the fact that the act of 1890 was not repealed in terms until August 28, 1894, and that the repealing section of the latter act kept in force every right and liability of the government, or of every person, which has been incurred or accrued prior to the passage thereof and thereby every right or liability was excepted out of the effect sought to be given to the first section. The right of the government to duties under the tariff law which existed between August 1 and August 28 was a right accruing prior to the passage of the act of 1894, and the obligation of the importers between August 1 and August 28 to pay the duties on their goods on the existing tariff law was a liability under that law arising prior to the passage of the act of 1894; and if congress intended that section A should revert back to August 1, still the intention is quite apparent that the act of 1890 should remain in full force and effect until the passage of the new act on August 28 and that all acts done, rights accrued and liabilities incurred under the earlier act prior to the repeal should be saved from the effect thereof as to all parties interested, the United States included.

"A higher rate was imposed on many articles by the act of 1894 than by the prior act, and a lower rate on others, while some that were free were made dutiable, as, for instance, the article of sugar. Must duties paid between August 1 and August 28 be refunded where the rate was lowered, and assessed where the rate was raised, or a duty imposed where none existed? Clearly not."

Summing up, the Chief Justice says: "As the act of 1890 was not repealed by the act of 1894 until the latter act became a law, when inconsistent laws were declared thereby repealed, we think it cannot be doubted that congress intended the rates of duty prescribed by the act of 1894 to be levied on the first day of August, if the bill should then be a law, and if not, then as soon after that date as it should become a law. On the first day of August the duties prescribed by the first section of the act of 1894 could not be lawfully levied, and so far as the importations in this case are concerned and others similarly situated, the law required exactation of the duties prescribed by the act of 1890. As to such importations, the first section of the act of 1894 could not be literally carried out unless by holding it to operate as a clause, and this we consider altogether indispensable. The language of section 1 was 'that on and after August 1 there be levied,' and of the second section, 'that on and after August 1' certain enumerated articles shall be exempt from duty. In our judgment the word 'shall' spoke for the future and was not intended to apply to transactions completed when the act became a law."

INDIANS WANT ALLOTMENT.

Omahas Anxious to Control Their Tribal Lands Themselves.

Pender, Neb., June 10.—United States Senator Allen held a council with the Omaha Indians at the Omaha agency to personally inform himself in regard to the controversy which is menacing the peace of this county. The contention is in regard to the disposition of their tribal lands, of which they have about fifty thousand acres. A number of prominent Omaha Indians told the senator that their people were unanimous in a desire for an immediate allotment in order that they might handle their tribal lands themselves. The subject of the five-year lease on a 23,000-acre tract of these lands to Contractor Farley was then brought up, the Indians claiming the contract was interpreted to them as a one-year lease.

To Discuss Currency Question.

Indianapolis, Ind., June 10.—The executive committee of the Democratic state editorial association yesterday issued a call for a meeting of the association at Maximuksee, June 27 and 28, to discuss the currency question. This step was taken after Chairman Taggart of the state committee had finally declined to call a state convention to discuss the subject. Democrats from all parts of the state have been invited to attend the meeting, and a lively session is looked for.

Preacher Starved to Death.

Guthrie, O. T., June 10.—Rev. John P. Smith, a Baptist country preacher ten days ago, has been found lying dead along the roadside in an adjoining county. He had been in poor health for a long time and stole some meat to keep his wife and little children from starving, was arrested and convicted of the theft, and sentenced to five years in the penitentiary. Feeling his punishment too great, he broke from jail and met death from exposure and starvation.

Queen Victoria in Danger.

Edinburgh, June 10.—The little town of Ballater, near Balmoral, where the queen is stopping, was startled late last evening by the reckless firing of a revolver in the streets. The young man who fired the pistol was arrested, and it was found that he had in his possession a paper addressed to Queen Victoria, whom he intended to visit. A doctor who examined the young man expressed the opinion that he was insane.

Hocking Valley Mines Resume.

Atchison Plan Effective.

New York, June 10.—The Atchison reorganization committee has declared the plan of reorganization effective. The securities deposited under the plan include \$30,000,000 general 4's, \$45,000,000 2's and 500,000 shares of the stock.

WILL NOT ARM INDIANS.

Agent of the Omaha Reservation Denies a Startling Rumor.

Pender, Neb., June 6.—Little interest is excited on the Omaha reservation by the report that the authorities at Washington have authorized the arming of the Indian police to evict the settlers. The report is not credited. Capt. Beck has repeatedly asserted that he would not place loaded guns in the hands of redskins and turn them loose to eject the settlers. Beck demands that the settlers cancel their leases with the Flournoy Land company and lease their farms direct from him. The settlers have been paying rent from year to year to the Flournoy people, who claim to have a long lease from the Indians. Beck has declared that the Flournoy company obtained their lease from the Indians by fraud and that in canceling it he is merely protecting the interests of the Indians. There are only twenty regular Indian police, although Beck has authority to swear in any or all of the 600 redskins on the Omaha reservation. While there are only 200 settlers on the reservation directly involved the hundreds of farmers in Thurston county are largely in sympathy with them. The settlers have arranged to apply to Judge Dundy of the federal court at Omaha for an injunction restraining federal troops interfering in the affairs of the reservation. Gov. Holcomb will be appealed to to oppose federal troops with militia, and an interesting clash of State, Federal, judicial and municipal authority is likely to be the result.

Archbishop Kenrick Not Deposed.

Rome, June 6.—It is said at the Vatican the action taken by the pope does not depose Archbishop Kenrick from his present title or position, nor does it appoint Archbishop Kain as his successor. It was made for the purpose of assisting in the management and administration of the church property of the archdiocese. It does not in any way make Archbishop Kain the successor of Archbishop Kenrick, but gives him such strong powers as coadjutor that he will be able to carry on the laborious work of managing the church property and affairs as though he were archbishop in name or fact. This will bring no deposition or removal of the venerable head of the archdiocese.
